

Full Maintenance Operating Lease

Volkswagen Finance offers full maintenance operating lease options on new and demonstrator Volkswagen vehicles. An operating lease can best be described as a long-term rental arrangement based on a term and specified kilometre allowance. At the conclusion of the lease, as long as you are within the specified lease terms you simply return the vehicle back to Volkswagen Finance with no additional costs and drive away in your next new Volkswagen. There is no residual risk to you, therefore you have no worries of vehicle disposal at the conclusion of the lease, as ownership is retained by Volkswagen Finance, residual risk and vehicle disposal is Volkswagen Finance's responsibility.

An operating lease allows you to easily budget your vehicle expense, and your monthly payments are fixed over the duration of the lease.

The fully maintained option makes forward planning a lot easier for you, as the monthly payments include scheduled servicing, annual registration, Warrants of Fitness, replacement tyres, puncture repairs and Volkswagen Mobility Guarantee.

The vehicle lease is treated as an off balance sheet expense thus freeing up your working capital.

Additional costs are fuel, road user charges (if applicable) and accident damage.

Insurance - You will be responsible for keeping the vehicle comprehensively covered over the term of the lease.

GST component of each rental can be claimed back.
(applies to GST registered entities only)

Fringe Benefit Tax (if applicable) is based on the GST inclusive on-road cost of the vehicle.

Taxation - Lease rentals are fully tax deductible as an operating expense. However, we would suggest that you seek independent financial/taxation advice.

Lease terms 36 months through to 45 months for passenger vehicles and 36 months through to 60 months for commercial vehicles.

Payments - first initial payment can be made by cheque and a direct debit can be set up for the remaining payments.

Excess mileage - If you find that you are driving more kilometres than originally planned, please contact Volkswagen Finance to have your remaining lease payments recalculated. Alternately you will be charged a lump sum for the excess kilometres travelled at the conclusion of your lease term.

Key Benefits at a glance

- Low initial outlay.
- Fixed monthly payments (accurate forecasting for budgets).
- Lease payments are tax deductible (see your accountant or tax advisor).
- Off balance sheet expense.
- Free up your working capital.
- No residual risk to you.
- Scheduled maintenance, replacement tyres, warrants of fitness and annual registration are included.
- Replace or return vehicle upon lease conclusion.
- Reduced administration.
